Ensto Modulo

IP65 Watertight distribution enclosures

Score your goal
with Ensto Modulo

Tough enclosures for the harshest environments

Ensto Modulo is an entirely new range of durable and innovative distribution enclosures. Ensto Modulo protects your electronic equipment from external risk factors, among them dust, water, moisture, impacts and tampering. Thanks to their high degree of protection and impact strength, Ensto Modulo is able to with-

stand the harshest environments and to tackle the most demanding installations.

Ensto has a broad experience in creating enclosing solutions for many applications and segments. Below are some examples of applications in which Ensto Modulo enclosures are typically used.

Benefits

Cost-efficient and easy

Outstanding technical features

Elegant and flexible design

Certified and tested by VDE

Ensto Modulo distribution enclosures

Ensto Modulo is a distribution panel enclosure for low-voltage switchgear and control gear assemblies with a completely stylish and innovative shape, reaching the highest level of quality and design.

Tested by the well-known Testing and Certification Institute (VDE), the product fulfils the requirements of IEC 62208:2011, 2nd Edition, DIN EN 62208:2012; EN 62208:2011.

The hinged smoke gray transparent window provides outstanding UV protection and an opening angle up to 180°. Ensto Modulo enclosures have a large space for different metric knock-outs for wiring. The possibility to place the DIN rail at two height positions and assembling the rail using only one screw, makes the installation easy and comfortable.

Ensto Modulo in brief:

- Available in 9 sizes, capacity for 4 to 54 modules
- Factory installed DIN-rails, earth and neutral bars
- Factory made metric knockouts from M20 to M40
- Removable DIN-rail chassis for models with two or more rows
- Sealed screws at four points for easy installation

Technical information

Degree of protection	IP65
Impact resistance (-25 °C ... +40 °C)	IK08 (5 J)
Auto-extinguishing degree	UL94 HB
Protection Class	II
Glow wire test	650 °C
Service temperature (empty boxes)	-25 °C ... +70 °C
Maximum voltage (empty boxes)	1000 V AC / 1500 V DC
Earth and Neutral bars	500 V / 125A

Body

Material	ABS
UV resistance (ISO 4892-2 meth. A)	500 hour
Color	Grey, RAL 7035

Window

Material	Polycarbonate
UV resistance (ISO4892-2 meth. A)	1000 hour
Color	Transparent, smoke grey

For outdoor use an enclosure of polycarbonate is highly recommended, available on request.

Metric knockouts as standard makes drilling on/off-site obsolete. Ensto has a wide range of plastic enlargers and reducers.

Window is hinged. This means that the opening direction can be changed quickly and safely.

Door can be supplemented with key lock (MODKL3) or triangle locks (MODKL2).

Earth and Neutral bars at double height, section 12 x 6.5 mm are factory installed.

Condensed water may form in high IP enclosures due to different temperatures. Consider the use of a breather device or drain (BVD22 or DWP1).

Joining enclosures is easy. A channel for wiring is possible with a joining kit for mounting enclosures horizontally (MODB25M) or vertically (MODB40M).

Internal hinges for large enclosures (MODHI2) allows the entire door to hang. See the example picture on page 4.

DIN-rails can be installed into two height positions. Fixing requires only one screw.

Ensto

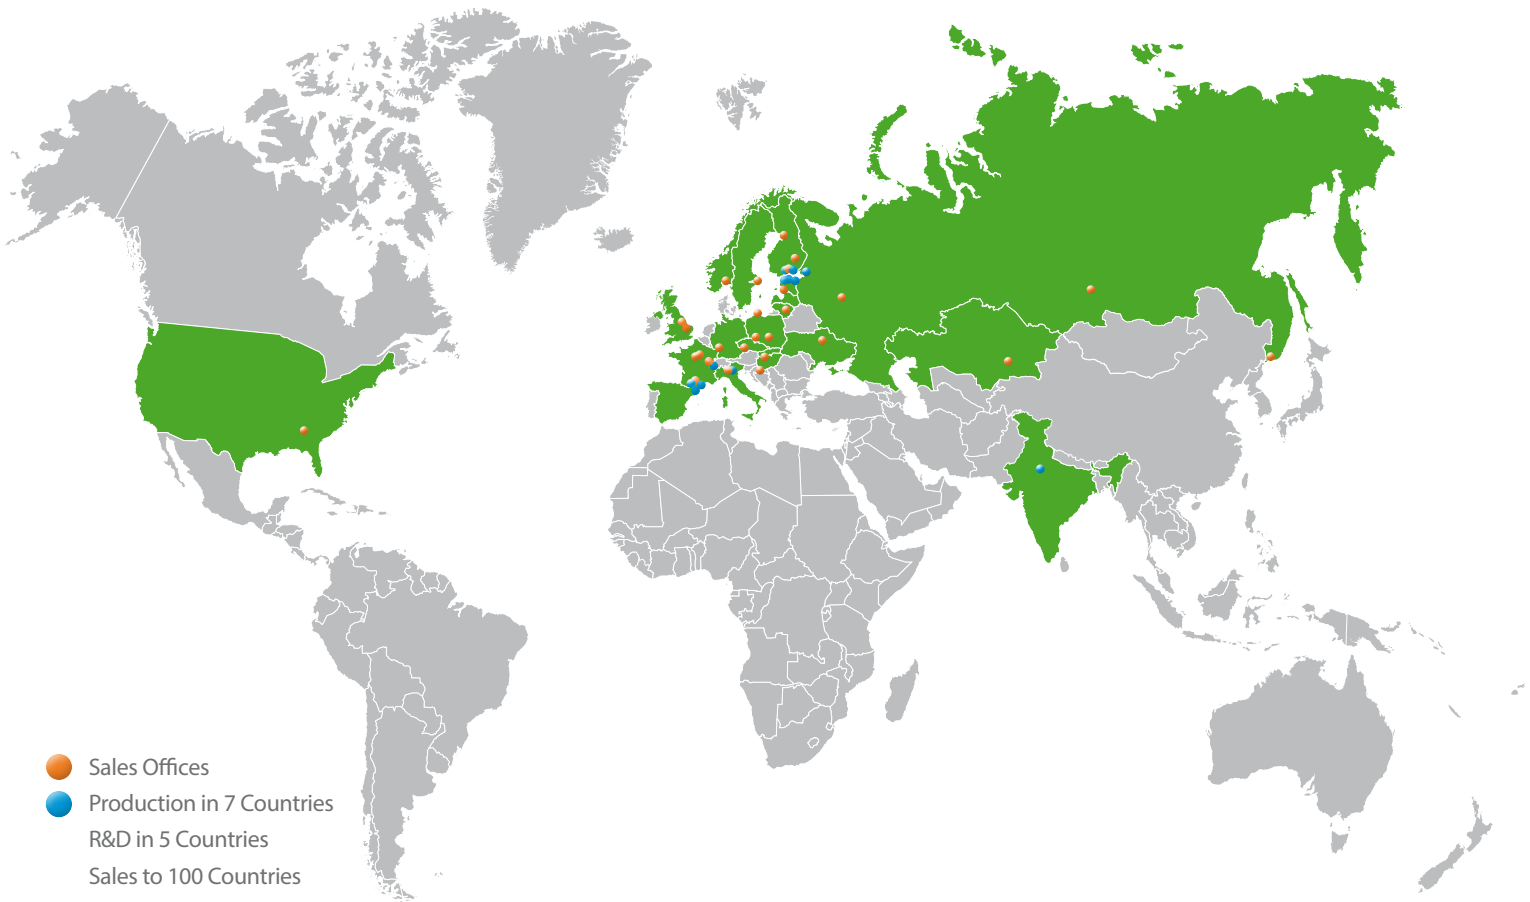

Ensto is a family business and international cleantech company specializing in the development, manufacture and marketing of electrical systems and supplies for the distribution of electrical power as well as electrical applications. We are committed to lasting sustainable development and our goal is to be the world's leading company in green energy efficiency and distribution. Our products, manufactured in seven different countries, are environmentally friendly, energy efficient and leave a minimum carbon footprint.

Facts

- Established in 1958
- 1600 people in Europe, Asia and Americas
- Local presence in 20 countries
- Turnover EUR 263 million
- Headquarters located in Finland.

Cleantech

Cleantech refers to all those products, services, processes, and technologies which prevent or reduce the impact of harmful actions on the environment. Cleantech stands for higher quality, efficiency, and profitability. Ensto and other Finnish companies are already world leaders in several key cleantech sectors.
